**Drawings**

It is respectfully requested that these substitute drawings be made a part of the record of the above-identified application.

**Examiner Interview**

Applicants wish to thank the Examiner for the interview conducted on July 2, 2003. During the interview, Applicants' representative described the current invention and all parties discussed the differences between the attribute information and the returned data and the attribute information in the reference as inferred directly from the multiple replies. It was agreed that should the claims be appropriately amended to specify that the attribute information is included in and extracted from the content

of the reply data, the Vellanki et al. reference would be withdrawn.

In accordance with the agreement made during the interview, by this Amendment, Applicants have amended the claims to clarify that attribute information is included in the content of the data received in a communication from the equipment. It is respectfully submitted that these amendments are being made without conceding the propriety of the Examiner's rejections, but merely to timely advance prosecution of the present application. Based upon these amendments, as agreed during the interview, it is respectfully requested that the outstanding rejections be withdrawn.
